Articles

Effect of TCDD on mRNA expression of genes encoding bHLH/PAS proteins in rat hypothalamus
M. Korkalainen, J. Lindén, J. Tuomisto, R. Pohjanvirta (Finland) 1–11
Carbofuran-induced oxidative stress in slow and fast skeletal muscles: prevention by memantine and atropine
D. Milatovic, R.C. Gupta, A. Dekundy, T.J. Montine, W.-D. Dettbarn (USA, Germany, USA) 13–24
Prospective protective role of melatonin against arsenic-induced metabolic toxicity in Wistar rats
S. Pal, A.K. Chatterjee (India) 25–33
Down-regulation of GAT-1 mRNA expression in the microdissected hypothalamic medial preoptic area of rat offspring exposed maternally to ethinylestradiol
M. Shibutani, N. Masutomi, C. Uneyama, N. Abe, H. Takagi, K.-Y. Lee, M. Hirose (Japan) 35–48
Effects of butylated hydroxyanisole on the development and functions of reproductive system in rats
S.-H. Jeong, B.-Y. Kim, H.-G. Kang, H.-O. Ku, J.-H. Cho (Republic of Korea) 49–62
Evaluation of the clinical, immunologic, and biochemical effects of nitroso sulfamethoxazole administration to dogs: a pilot study
S.N. Lavergne, E.M. Volkman, J.E. Maki, A.R. Yoder, L.A. Trepanier (USA) 63–72
Different cytoprotective effect of antioxidants and change in the iron regulatory system in rodent cells exposed to paraquat or formaldehyde
H. Ayaki, M.J. Lee, K. Sumino, H. Nishio (Japan) 73–79
Chemoprotective and toxic potentials of synthetic and natural chalcones and dihydrochalcones in vitro
H. Forejtníková, K. Lunerová, R. Kubínová, D. Jankovská, R. Marek, R. Kareš, V. Suchý, J. Vondráček, M. Machala (Czech Republic) 81–93
Inhibition of cyclooxygenase activity, platelet aggregation and thromboxane B_2 production by two environmental toxicants: *m*- and *o*-cresol
C.-P. Chan, H. Yuan-Soon, Y.-J. Wang, W.-H. Lan, L.-I. Chen, Y.-J. Chen, B.-R. Lin, M.-C. Chang, J.-H. Jeng (Taiwan, Australia) 95–104
Evaluation of particle translocation across the alveolo-capillary barrier in isolated perfused rabbit lung model
A. Nemmar, J. Hamoir, B. Nemery, P. Gustin (Belgium) 105–113
Evaluation of anti-androgenic activity of di-(2-ethylhexyl)phthalate
T. Stroheker, N. Cabaton, G. Nourdin, J.-F. Régnier, J.-C. Lhuguenot, M.-C. Chagnon (France) 115–121
Effects of P-glycoprotein inhibitors on transepithelial transport of cadmium in cultured renal epithelial cells, LLC-PK_1 and LLC-GA5-COL 150
O. Kimura, T. Endo, Y. Hotta, M. Sakata (Japan) 123–132
Increased levels of metallothionein in placenta of smokers
A.M. Ronco, G. Arguello, M. Suazo, M.N. Llanos (Chile) 133–139
In vitro genotoxicity of the West African anti-malarial herbal *Cryptolepis sanguinolenta* and its major alkaloid cryptolepine
C. Ansah, A. Khan, N.J. Gooderham (UK) 141–147

Immunotoxicology

The immunosuppressive effect of methylmercury does not preclude development of autoimmunity in genetically susceptible mice
B. Häggqvist, S. Havarinasab, E. Björn, P. Hultman (Sweden) 149–164

doi:10.1016/S0300-483X(05)00054-5

News and views
Are some animals more equal than others?
A. Mukherjee, M.K. Sengupta, Md.A. Hossain, S. Ahamed, D. Lodh, B. Das, B. Nayak, K.C. Saha, S.C. Mukherjee, S. Pati, R.N. Dutta, G. Chatterjee, D. Chakraborti (India) 165–169

Special Issue

Nitric Oxide, Cell Signalling and Death

Guest Editor: João Laranjinha

Articles
Nitric oxide, cell signaling and cell death
G.A. Blaise, D. Gauvin, M. Gangal, S. Authier (Canada) 177–192
NO signaling in the CNS: from the physiological to the pathological
A. Bishop, J.E. Anderson (USA) 193–205
Redox interactions of nitric oxide with dopamine and its derivatives
F. Antunes, C. Nunes, J. Laranjinha, E. Cadenas (Portugal, USA) 207–212
Apoptotic volume decrease and nitric oxide
C.D. Bortner (USA) 213–221
NO and transcriptional regulation: from signaling to death
J. Zhou, B. Brüne (Germany) 223–233
Nitric oxide signalling and cellular adaptations to changes in oxygenation
L.-M. Postovit, R. Sullivan, M.A. Adams, C.H. Graham (Canada) 235–248
Nitric oxide and cell viability in inflammatory cells: a role for NO in macrophage function and fate
L. Boscá, M. Zeini, P.G. Través, S. Hortelano (Spain) 249–258
An epigrammatic (abridged) recounting of the myriad tales of astonishing deeds and dire consequences pertaining to nitric oxide and reactive oxygen species in mitochondria with an ancillary missive concerning the origins of apoptosis
D.E. Heck, V.E. Kagan, A.A. Shvedova, J.D. Laskin (USA) 259–271
Peroxynitrite and drug-dependent toxicity
A. Denicola, R. Radi (Uruguay) 273–288
Nitric oxide and chemically induced hepatotoxicity: beneficial effects of the liver-selective nitric oxide donor, V-PYRRO/NO
J. Liu, M.P. Waalkes (USA) 289–297
Pathophysiological functions of nitric oxide-mediated protein modifications
H. Ischiropoulos, A. Gow (USA) 299–303
Nitric oxide, peroxynitrite and lipoxygenase in atherogenesis: mechanistic insights
H. Rubbo, V. O'Donnell (Uruguay, UK) 305–317

Contents of Volume 207 No. 3

Articles
Soman poisoning increases neural progenitor proliferation and induces long-term glial activation in mouse brain
J.-M. Collombet, E. Four, D. Bernabé, C. Masqueliez, M.-F. Burckhart, V. Baille, D. Baubichon, G. Lallement (France) 319–334
Interference of arachidonic acid and its metabolites with TNF-α release by ochratoxin A from rat liver
L. AL-Anati, N. Katz, E. Petzinger (Germany) 335–346

The cytotoxicity of oxalate, metabolite of ethylene glycol, is due to calcium oxalate monohydrate formation
C. Guo, K.E. McMartin (USA) 347–355
The effects of gestational arsenic exposure and dietary selenium deficiency on selenium and selenoenzymes in maternal and fetal tissues in mice
K. Miyazaki, C. Watanabe, K. Mori, K. Yoshida, R. Ohtsuka (Japan) 357–365
Oxidative stress mediates drug-induced hepatotoxicity in rats: a possible role of DNA fragmentation
A. Amin, A.A. Hamza (United Arab Emirates) 367–375
Thyroid hormone-like and estrogenic activity of hydroxylated PCBs in cell culture
S. Kitamura, N. Jinno, T. Suzuki, K. Sugihara, S. Ohta, H. Kuroki, N. Fujimoto (Japan) 377–387
Aequorin chimeras as valuable tool in the measurement of Ca^{2+} concentration during cadmium injury
M. Biagioli, P. Pinton, R. Scudiero, M. Ragghianti, S. Bucci, R. Rizzuto (Italy) 389–398
The pharmacokinetics and pharmacodynamics of two HI-6 salts in swine and efficacy in the treatment of GF and soman poisoning
P.M. Lundy, I. Hill, P. Lecavalier, M.G. Hamilton, C. Vair, C. Davidson, K.L. Weatherby, B.J. Berger (Canada) 399–409
